MR. R. K. HART is a candidate for Representative in the Legislature in Fleming.

The Republicans of the First Ohio District have nominated Ben. Butterworth as their candidate for Congress.

The Republicans and Greenbackers of South Carolina are endeavoring to get up a fusion ticket at the next election.

Covington Commonwealth: The Republicans of the First Kentucky district have nominated an ex-Confederate for Congress. The Democrats of the Ninth district have nominated an ex-Union soldier. Gov. Jacob might from the facts deduce an interesting conclusion.

Minor and Rerdell, the convicted Star Routers, in consideration of having a new trial granted them, and for revenge for the treatment they received from their co-conspirators propose to go upon the stand at retrial of Brady and the Dorseys and tell the jury freely all that they know. In this way it may be possible to mete out justice to the principals in the scoundrelism. The new trials will take place probably in December.

Hon. J. Proctor Knott.

The announcement of the candidacy of Hon. Proctor Knott for the Governorship, directs public attention in this State to a gentleman who has made a distinguished figure in national politics for many years past, and who, though popularly known and admired for his genial manners and incomparable humor, has scarcely won that general recognition for statesmanlike force and ability which his record as a public man shows him to possess in a peculiarly high degree. As a popular representative he has been chiefly remarkable for his stern and unflinching advocacy of Democratic principles. His bold and able arraignment of a Republican majority in Congress for its unscrupulous effort to control popular elections by military interference; his steady and uncompromising opposition to the unconstitutional device of an electoral commission organized to revise and rescind a popular decree; his unswerving adherence to the Jeffersonian principle of economy in public expenditure and his consequent opposition to every form of Congressional appropriation for merely local purposes, together with the general character and tendency of his views and votes upon all public questions, attest in an unmistakable manner the consistency of his principles as a Democrat, and his statesmanlike conception of his duties as a public man.

The Democracy of Kentucky will be highly privileged if permitted to make choice between the distinguished candidates now in the field, and without expressing any preference or opinion of our own, we think it no more than just to an honorable and deserving representative of the people that the Democracy of this section of the State should be fully informed as to the character and record of so distinguished a citizen of the Commonwealth as the Hon. Proctor Knott.

The Forests Disappearing.

As an indication of the rapidity with which the pine forests of the south are disappearing it is stated that the State of Georgia alone exports 500,000,000 feet of lumber annually, which strips 95,000 acres of timber land. Again it is stated that at Big Rapids, Mich., from 30,000,000 to 40,000,000 feet are cut annually. The German Empire possesses only about 34,000,000 acres of timber, and the government of that country, like that of Germany, looks carefully to the preservation of this part of its resources.
